SUMMARY

A skilled full stack developer specializing in Laravel and PHP, with experience building HRMS, payroll, e-commerce, and SaaS platforms for real clients. Demonstrated abilities in system design, database optimization, and integrating AI-powered automation using n8n, AI agents, and RAG workflows. Recognized for problem-solving, clean architecture, and delivering reliable systems that support complex business needs. Also experienced with Docker and Oracle SQL.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Laravel) Nov 2025 – Sep 2026
Horizon IT – Satellite Services | Egypt

- Building smart digital solutions for GIS, satellite services, and remote sensing projects using modern web technologies.

Full Stack Developer (Laravel) Jul 2025 – Dec 2025
PureSoft | Egypt

- Designed and developed websites, mobile applications, and custom business systems, including POS solutions, for clients across various industries.

PROJECTS

- **Masarat – Educational Platform (Laravel)** Sep 2026
 - Built and deployed a live e-learning platform where students can enroll in courses, track their progress, and interact with instructors. Reached 187 students during its pilot launch.
 - Live demo: masarat-platform.fly.dev
- **CoreWise — Graduation Project (Laravel)** Jul 2026
 - Built a multi-tenant HR & payroll platform for the MENA region with role-based access control and full Arabic/English/French localization.
 - Integrated AI automation workflows using n8n, including an AI-powered ATS and a RAG-based HR chatbot, cutting manual HR processing time from hours to minutes, along with real-time chat, Kanban tracking, and GPS-based attendance.
- **Taqawi (Laravel, React, Next.js)** May 2026
 - Built a bilingual platform combining a Laravel REST API, a React public site, and a Next.js admin dashboard for investor relations, financial documents, and content management, with role-based access and interactive analytics dashboards.
- **Anany Audit & Assurance Office (Laravel)** Dec 2025
 - Built a bilingual corporate CMS with role-based access control, integrated with Meilisearch search, automated email notifications, and a real-time admin analytics dashboard. Live in production.
 - Live site: anany.eg
- **Fsoal (Fosool) – EdTech Platform (Laravel)** Oct 2025
 - Designed a bilingual learning platform for teachers and students, with role-based Filament admin panels, class booking, an auto-graded quiz engine, live video sessions, and online payments. Live in production.
 - Live site: fsoal.sys-web.net

- **Afaq Store (Laravel)**

Sep 2025

- Collaborated with Afaq Store as part of the development team to build a modular e-commerce platform with a RESTful API secured via OAuth2, a Filament admin panel, and integrated push notifications and live video support. Live in production.
- Live site: afaq-stores.com

EDUCATION

- Bachelor's Degree, Faculty of Computers and Artificial Intelligence, Menoufia National University — 2026

CERTIFICATIONS & TRAINING

- Oracle SQL, Oracle Learning Explorer
- Building Web Applications using PHP & MySQL, Mahara-Tech (ITI Platform), Jan 2026
- Python Programming Basics, Mahara-Tech AI Academy (ITI Platform), Jan 2026
- PHP Essential Training, LinkedIn Learning, Jun 2025
- Digital Egypt Pioneers Program (DEPI) – AI & Data Science: Microsoft Machine Learning Engineer Track (159 hours), Ministry of Communications and Information Technology of Egypt, Apr – Oct 2024
- DEPI Star – Business English Track, Berlitz Egypt, Apr – Oct 2024
- Data Analytics & Machine Learning Workshop, Google Developer Student Clubs – Cairo University (FCAI), Apr – Jul 2024
